

# Global Innovation Index 2022

## MADAGASCAR

**106th**

Madagascar ranks 106th among the 132 economies featured in the GII 2022.

The Global Innovation Index (GII) ranks world economies according to their innovation capabilities. Consisting of roughly 80 indicators, grouped into innovation inputs and outputs, the GII aims to capture the multi-dimensional facets of innovation.

The following table shows the rankings of Madagascar over the past three years, noting that data availability and changes to the GII model framework influence year-on-year comparisons of the GII rankings. The statistical confidence interval for the ranking of Madagascar in the GII 2022 is between ranks 96 and 115.

**Rankings for Madagascar (2020–2022)**

GIIYR	GII	Innovation inputs	Innovation outputs
2020	115	125	100
2021	110	127	78
2022	106	125	85

- Madagascar performs better in innovation outputs than innovation inputs in 2022.
- This year Madagascar ranks 125th in innovation inputs, higher than last year but the same as 2020.
- As for innovation outputs, Madagascar ranks 85th. This position is lower than last year but higher than 2020.

**2nd**

Madagascar ranks 2nd among the 12 low-income group economies.

**10th**

Madagascar ranks 10th among the 27 economies in Sub-Saharan Africa.

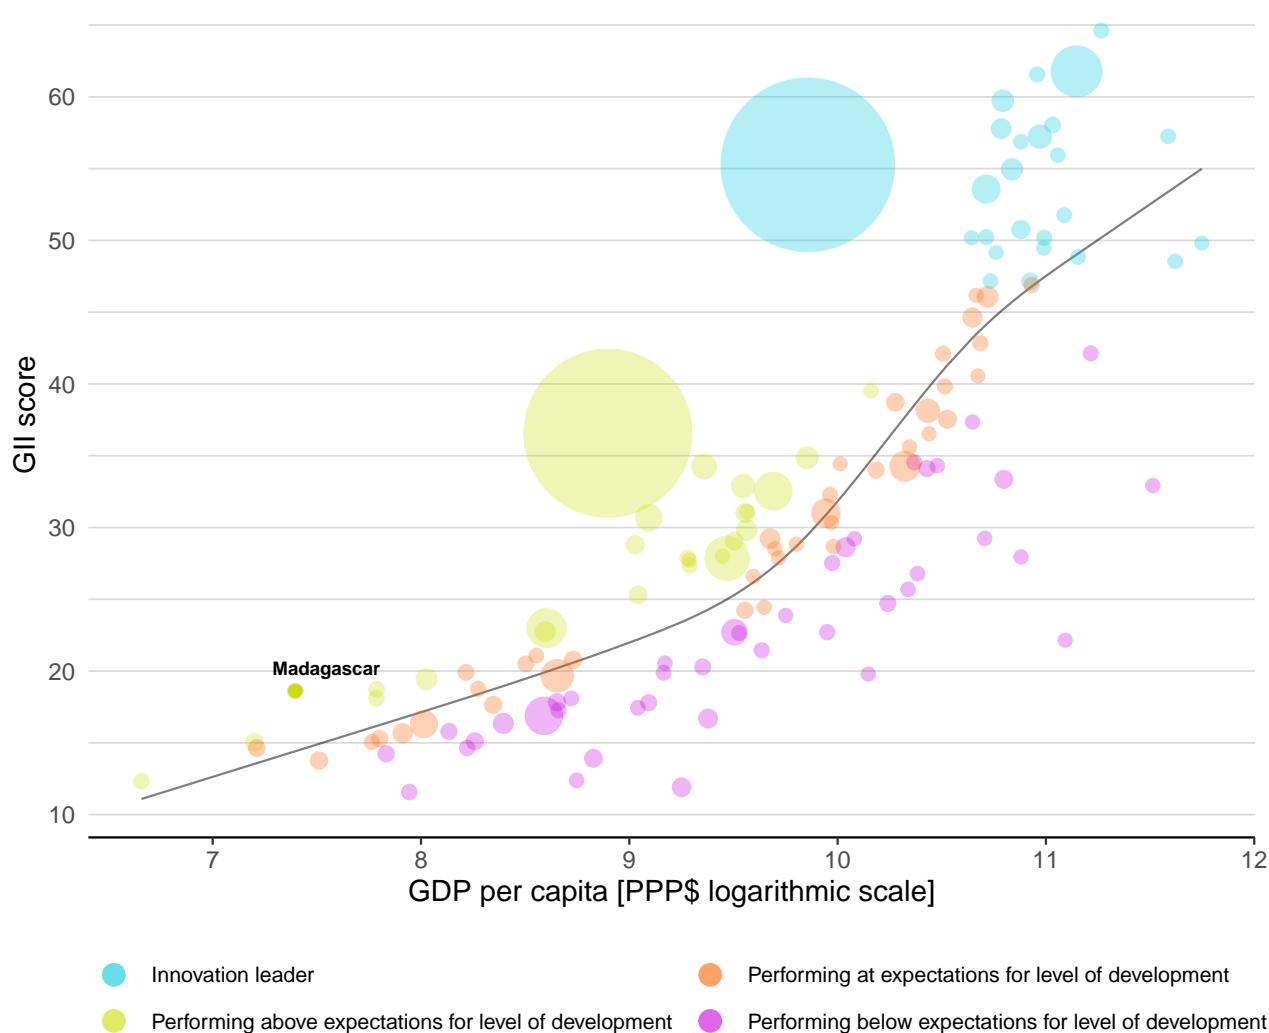

## EXPECTED VS. OBSERVED INNOVATION PERFORMANCE

The bubble chart below shows the relationship between income levels (GDP per capita) and innovation performance (GII score). The trend line gives an indication of the expected innovation performance according to income level. Economies appearing above the trend line are performing better than expected and those below are performing below expectations.

Relative to GDP, Madagascar's performance is above expectations for its level of development.

### The positive relationship between innovation and development

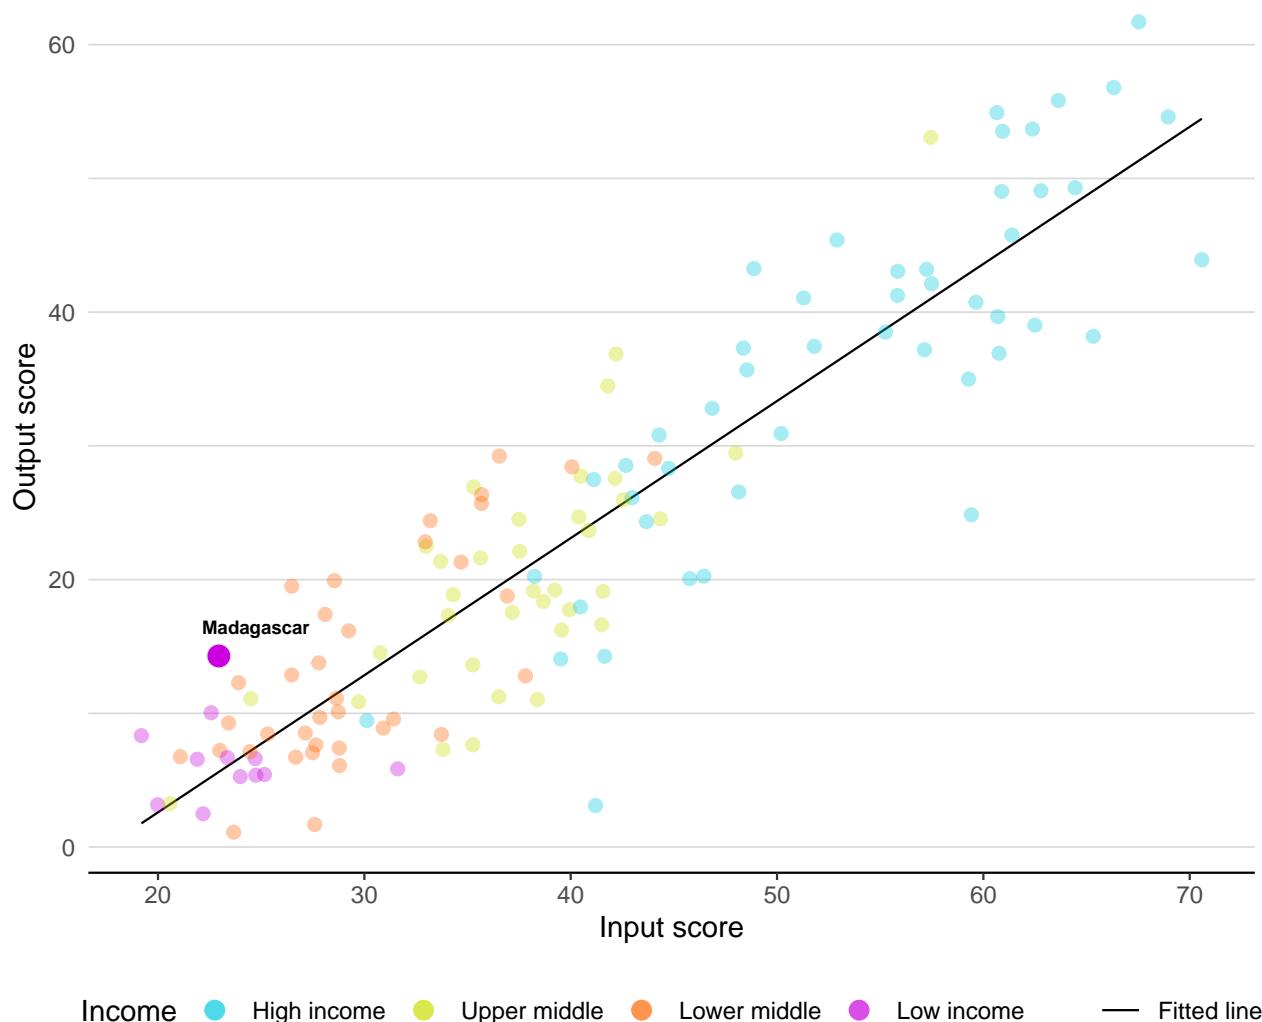

## EFFECTIVELY TRANSLATING INNOVATION INVESTMENTS INTO INNOVATION OUTPUTS

The chart below shows the relationship between innovation inputs and innovation outputs. Economies above the line are effectively translating costly innovation investments into more and higher-quality outputs.

Madagascar produces more innovation outputs relative to its level of innovation investments.

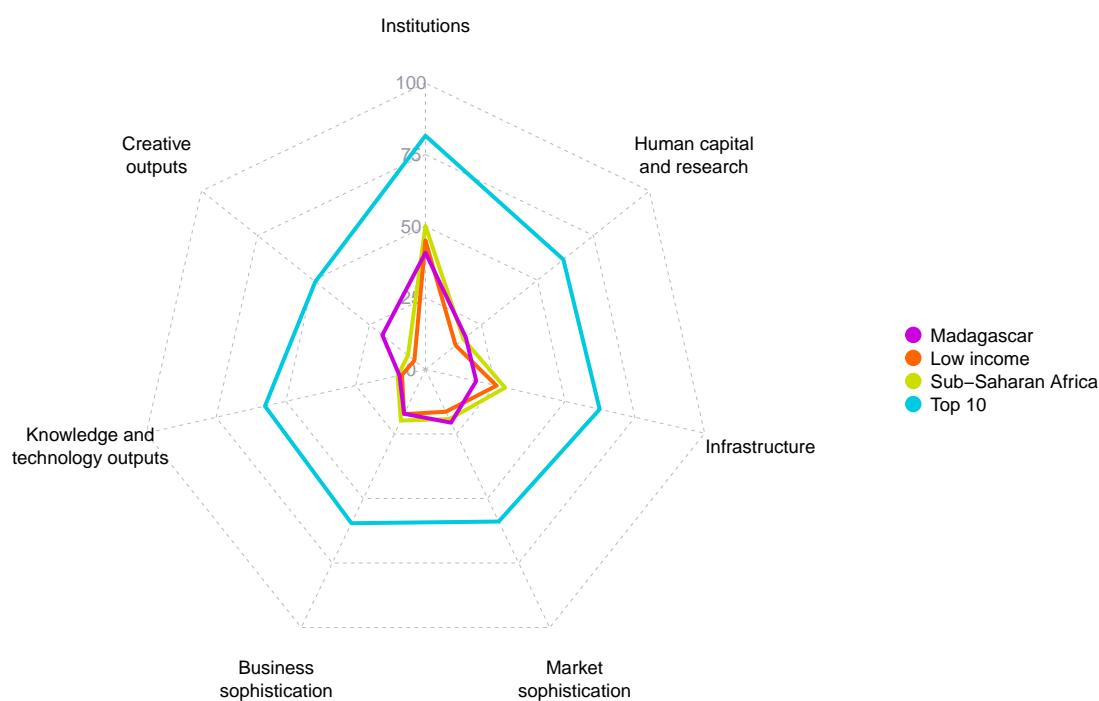

**Innovation input to output performance**

## BENCHMARKING AGAINST OTHER LOW-INCOME GROUP ECONOMIES AND SUB-SAHARAN AFRICA

### The seven GII pillar scores for Madagascar

### Low-income group economies

Madagascar performs above the low-income group average in four pillars, namely: Human capital and research; Market sophistication; Knowledge and technology outputs; and, Creative outputs.

### Sub-Saharan Africa

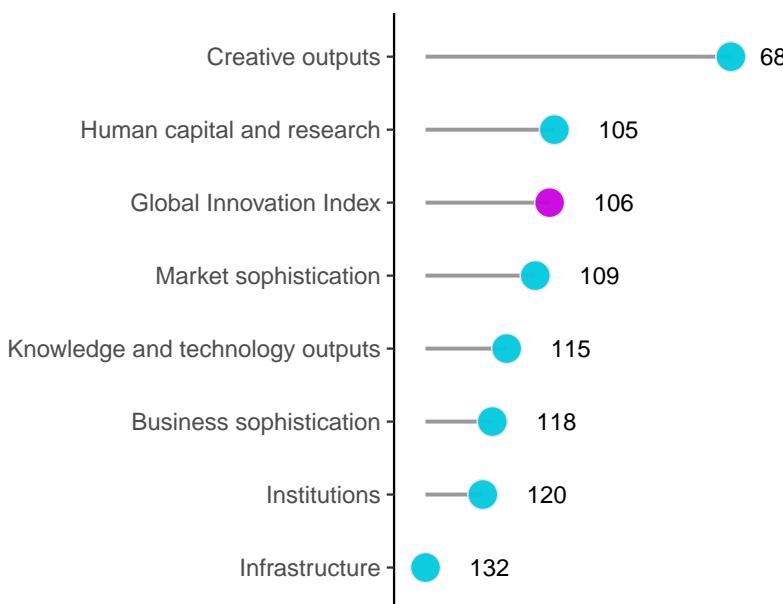

Madagascar performs above the regional average in three pillars, namely: Human capital and research; Market sophistication; and, Creative outputs.

## OVERVIEW OF RANKINGS IN THE SEVEN GII 2022 AREAS

Madagascar performs best in Creative outputs and its weakest performance is in Infrastructure.

### The seven GII pillar ranks for Madagascar

Note: The highest possible ranking in each pillar is 1.

**The full WIPO Intellectual Property Statistics profile for Madagascar can be found at:**

[https://www.wipo.int/ipstats/en/statistics/country\\_profile/profile.jsp?code=MG](https://www.wipo.int/ipstats/en/statistics/country_profile/profile.jsp?code=MG).

## INNOVATION STRENGTHS AND WEAKNESSES

The table below gives an overview of the indicator strengths and weaknesses of Madagascar in the GII 2022.

### Strengths and weaknesses for Madagascar

Strengths			Weaknesses		
Code	Indicator name	Rank	Code	Indicator name	Rank
1.2.3	Cost of redundancy dismissal	58	2.1.2	Government funding/pupil, secondary, % GDP/cap	104
2.2.2	Graduates in science and engineering, %	21	2.3.2	Gross expenditure on R&D, % GDP	114
4.1.3	Loans from microfinance institutions, % GDP	30	2.3.3	Global corporate R&D investors, top 3, mn USD	38
5.3.1	Intellectual property payments, % total trade	75	2.3.4	QS university ranking, top 3	72
5.3.3	ICT services imports, % total trade	46	3.1.4	E-participation	126
5.3.4	FDI net inflows, % GDP	33	3.2.1	Electricity output, GWh/mn pop.	128
6.3.1	Intellectual property receipts, % total trade	57	5.1.1	Knowledge-intensive employment, %	123
6.3.4	ICT services exports, % total trade	43	5.2.5	Patent families/bn PPP\$ GDP	101
7.1.2	Trademarks by origin/bn PPP\$ GDP	38	6.2.2	New businesses/th pop. 15–64	118
7.1.4	Industrial designs by origin/bn PPP\$ GDP	24	7.3.4	Mobile app creation/bn PPP\$ GDP	117

# Madagascar

**106**

## MADAGASCAR'S INNOVATION SYSTEM

As far as practicable, the plots below present unscaled indicator data.

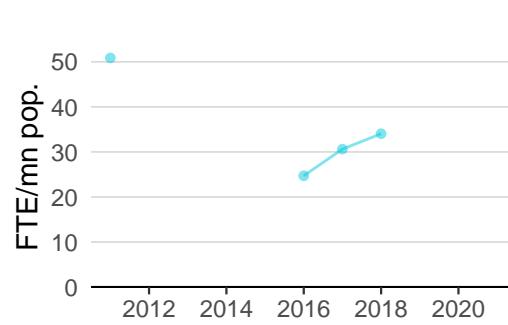

### Innovation inputs

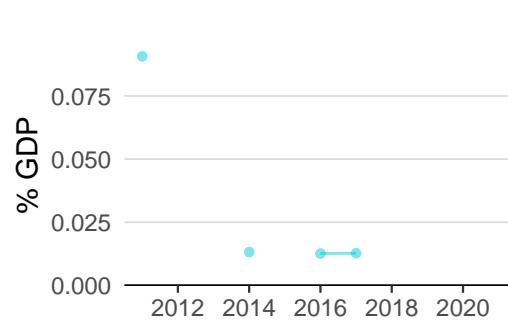

**2.1.1 Expenditure on education** was equal to 3.1% GDP in 2020—up by 3 percentage points from the year prior—and equivalent to an indicator rank of 106.

**2.2.2 Graduates in science and engineering** was equal to 29.1% of tert. grads in 2020 and equivalent to an indicator rank of 21.

**2.3.1 Researchers** was equal to 34.0 FTE/mn pop. in 2018—up by 11 percentage points from the year prior—and equivalent to an indicator rank of 100.

**2.3.2 Gross expenditure on R&D** was equal to 0.0% GDP in 2017—up by 1 percentage point from the year prior—and equivalent to an indicator rank of 114.

**2.3.4 QS university ranking** was equal to 0.0 in 2021—effectively unchanged from the year prior—and equivalent to an indicator rank of 72.

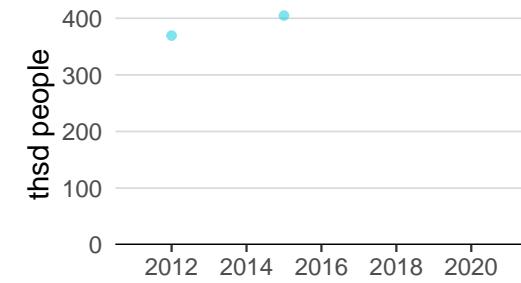

**3.1.1 ICT access** was equal to 4.2 in 2020 and equivalent to an indicator rank of 126.

**4.2.4 Venture capital received** was equal to 3.0 mn USD in 2013 .

**5.1.1 Knowledge-intensive employment** was equal to 404.9 thsd people in 2015 and equivalent to an indicator rank of 123.

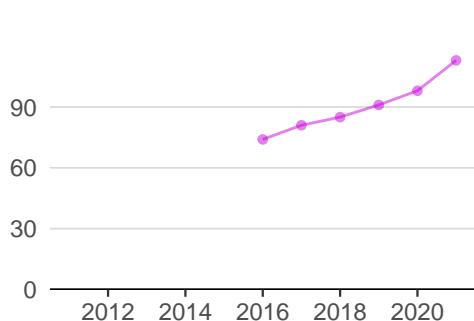

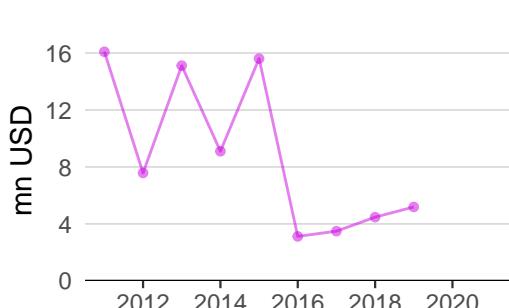

## Innovation outputs

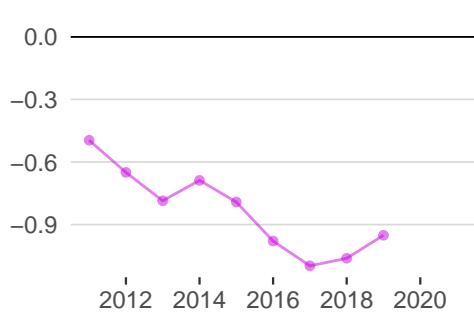

**6.1.1 Patents by origin** was equal to 6.0 in 2020—up by 15 percentage points from the year prior—and equivalent to an indicator rank of 107.

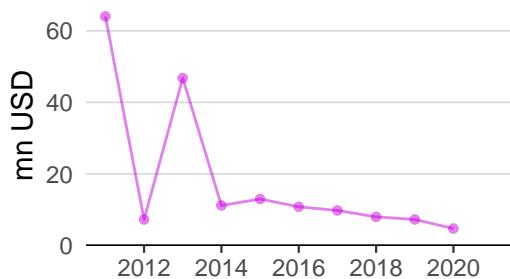

**6.1.5 Citable documents H-index** was equal to 113.0 in 2021—up by 15 percentage points from the year prior—and equivalent to an indicator rank of 109.

**6.3.1 Intellectual property receipts** was equal to 5.2 mn USD in 2019—up by 16 percentage points from the year prior—and equivalent to an indicator rank of 57.

**6.3.2 Production and export complexity** was equal to -1.0 in 2019—up by 10 percentage points from the year prior—and equivalent to an indicator rank of 105.

**6.3.3 High-tech exports** was equal to 4.7 mn USD in 2020—down by 35 percentage points from the year prior—and equivalent to an indicator rank of 113.

**7.2.1 Cultural and creative services exports** was equal to 2.8 mn USD in 2020—down by 50 percentage points from the year prior—and equivalent to an indicator rank of 88.

## ABOUT THE GLOBAL INNOVATION INDEX

The Global Innovation Index (GII) is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations.

Recognizing that innovation is a key driver of economic development, the GII aims to provide an innovation ranking and rich analysis referencing around 130 economies. Over the last decade, the GII has established itself as both a leading reference on innovation and a “tool for action” for economies that incorporate the GII into their innovation agendas.

Source: Global Innovation Index Database, WIPO, 2022.

The Index is a ranking of the innovation capabilities and results of world economies. It measures innovation based on criteria that include institutions, human capital and research, infrastructure, credit, investment, linkages; the creation, absorption and diffusion of knowledge; and creative outputs.

The GII has two sub-indices: the Innovation Input Sub-Index and the Innovation Output Sub-Index, and seven pillars, each consisting of three sub-pillars.
